ANKITA JIYANI MANGTANI

ABOUT

I am an Instructional Deisgner with a passion for creating engaging and effective e-learning courses. With experience designing and developing courses at all levels, from K-12 to corporate compliance training, I have honed my skills in a range of instructional design strategies, including gamification, microlearning, and scenario-based learning. I am well-versed in conducting needs analysis, adhering to WCAG guidelines, and using AI tools for both creation and research purposes.

Over the years, I have had the opportunity to work with a variety of authoring tools such as Rise, Storyline, Camtasia, Slides. com, Comic Life, Canva, PowerPoint, Lectora, Adobe Captivate, and many more. Additionally, I have used cutting-edge AI tools such as chatGPT, Midjourney5, Dall-e, and Resemble to create engaging and immersive learning experiences for my learners.
